

Got a company car? Here's what you need to complete our form.

If you own a car that is registered or leased in a company name then you will need to provide a 'Company Car/Salary Sacrifice Letter' to confirm you have been named by your employer as the primary user of the electric vehicle.

The letter must be included on company-headed paper and hand-signed by a senior member of your company (e.g. Finance Director or Managing Director). If company-headed paper isn't available, then make sure to include your employer's address in the letter.

Please use the download link in the FAQs to find the template for the 'Company Car/Salary Sacrifice Letter'.
